

SHAMIM HASNAIN

Software Development Engineer II · Frontend System Architect · Mobile & Web

hasnainbauet@gmail.com · 01883100632 · github.com/shadid06 · linkedin.com/in/shamim-hasnain · shamim-hasnain.vercel.app

PROFESSIONAL SUMMARY

High-impact Software Development Engineer with a proven track record of architecting and delivering enterprise-grade Web and Mobile applications. Expert in frontend system design, cross-platform development, and seamless integrations with tier-1 ERPs (SAP, Oracle). Recognized for transforming traditional business operations into automated, paperless workflows that serve thousands of users, slash processing times, and drive multi-million-dollar operational efficiencies.

CORE COMPETENCIES

Architecture	Frontend System Design · UI/UX Strategy · RBAC · Micro-frontends
Integrations	SAP ERP · Oracle EBS · RESTful APIs · Secure QR Authentication · JWT
Languages	JavaScript · TypeScript · Dart · SQL · C/C++ · HTML/CSS
Frameworks & Tools	React · Next.js · zustand · Flutter · Tanstack Query · Bloc & Provider · Tailwind CSS
Business Domains	Enterprise HR Tech · Procurement & Supply Chain · Incentive & Loyalty Management · Warranty Systems

PROFESSIONAL EXPERIENCE

Frontend Lead | Western Engineering Group (WEPL)

Enterprise HR Transformation · SAP Integration · Paperless Operations for 2,000+ Employees

- **ESS Ecosystem Architect:** Spearheaded end-to-end design and delivery of the group-wide Employee Self-Service platform (Android app + Web), migrating 2,000+ employees to a fully paperless workflow—eliminating manual paper-based HR processes across all business units.
- **SAP ERP Integration:** Engineered real-time bi-directional data pipelines between the ESS platform and SAP HR modules; any job/position created in SAP auto-syncs instantly, ensuring data integrity across decentralized divisions.
- **Operational Efficiency:** Automated geo-fenced attendance tracking and algorithmic leave/loan approval workflows, reducing executive approval turnaround by ~75% and virtually eliminating proxy attendance.
- **Approval & Compliance Engine:** Designed multi-tiered RBAC and hierarchical approval dashboards for leave, loan, move orders, and complaint management—cutting compliance audit friction by ~40%.
- **Reporting & Analytics:** Built advanced reporting suite (leave calendars, attendance reports, loan requisitions) with CSV and PDF export; employee bulk uploads via Excel integration.

Frontend System Architect | Seven Rings Cement (SSGIL) — via Fusion Infotech Ltd.

Multi-Million Dollar Oracle-Integrated Procurement Platform · UI/UX Design System Ownership

- **Procurement Platform (P2P):** Led frontend system design from UX wireframing to production for a high-volume Procure-to-Payment application integrated with Oracle ERP, handling multi-million-dollar sourcing cycles for a leading industrial group.
- **Oracle APEX Migration:** Replaced legacy Oracle APEX with a modern React.js architecture, delivering measurable gains in performance, scalability, and maintainability—directly increasing client satisfaction.
- **Supply Chain Optimization:** Redesigned vendor portals, RFQ/CS/PO dashboards, and multi-level approval flows; reduced corporate procurement cycle time by ~35% through streamlined UX and automated state management.

- **Design System & Reusability:** Authored a modular component library from scratch, accelerating developer velocity by ~50% and ensuring pixel-perfect visual consistency across all enterprise web assets.
- **End-to-End Workflow Automation:** Covered full P2P lifecycle—supplier registration/approval, PR→RFQ→CS→PO→GRN→Invoice—each stage with JWT-secured multi-level approval, ensuring compliance and auditability.

Frontend System Architect | BRB Cable Industries Ltd. — via Fusion Infotech Ltd.

Warranty & Incentive Management Ecosystem · B2B Dealer/Retailer Network · Secure QR Authentication

- **Ecosystem Architecture:** Architected and launched a comprehensive Warranty & Incentive Management platform (Web + Mobile) serving thousands of dealers, retailers, and sales points for BRB's cable, bulb, and fan product lines.
- **Secure QR Authentication:** Designed a QR-code generation and validation engine enabling instant, fraud-proof product authentication at the merchant level—eliminating counterfeit warranty claims.
- **Retailer Onboarding & Incentives:** Built an automated B2B onboarding, verification, and multi-tier incentive payout system, reducing manual retail audit workloads by ~60% and accelerating partner activation.
- **Role-Based Approval Workflows:** Engineered a dynamic approval dashboard with advanced user privilege mapping across sales points, dealers, retailers, and admin tiers—minimizing drop-offs in complex warranty and incentive workflows.
- **User & Access Management:** Implemented robust role and permission management ensuring the right level of access at every tier of the B2B distribution hierarchy.

Software Development Engineer II | Fusion Infotech Limited

Apr 2023 – Present · Dhaka

Client: Seven Rings Cement (SSGIL) · Oracle ERP-Integrated P2P Platform · UI/UX System Ownership

- **Oracle APEX Migration:** Replaced legacy Oracle APEX reporting with a modern React.js application, delivering significant improvements in load performance, scalability, and maintainability—directly recognized by the client as a major UX upgrade.
- **UI/UX Collaboration:** Partnered directly with UI designers to shape application interfaces, translating wireframes into polished, production-ready screens; reduced feedback cycles and cut design-to-dev handoff time significantly.
- **Codebase Quality:** Eliminated codebase redundancy through an extensively reusable component library; accelerated feature delivery velocity by ~50% and enforced visual consistency across all enterprise modules.

Freelance Software Engineer | Self-Employed

Dec 2022 – Mar 2023 · Remote

- Delivered cross-platform mobile (Flutter) and web (React.js) applications for startups and SMEs; handled full lifecycle: UI/UX, API integration, state management (Bloc, Zustand), and deployment.
- Built clean-architecture, reusable-component codebases optimized for performance and long-term maintainability.

Flutter Developer | Automation Services Ltd.

Jul 2022 – Nov 2022 · Dhaka

- Developed a high-performance cross-platform eCommerce app in Flutter; leveraged cross-platform capabilities to materially reduce client development costs.
- Redesigned BPDB issue-tracking app in Flutter and presented to BPDB management—proposal accepted, securing the contract for the company.
- Delivered a company portfolio web app in React.js with improved UX and performance, earning high client satisfaction ratings.

Intern Flutter Developer | Debug BD Ltd.

May 2019 – Oct 2019 · Dhaka

- Built foundational mobile apps (Blood Bank, Hedy Reminder) using Flutter; contributed to UI design of an Air Ticket Booking application.

FLAGSHIP PROJECTS

Western Engineering ESS — Mobile & Web (SAP-Integrated HR Platform)

Group-wide employee self-service platform for 2,000+ staff. Features: geo-fenced attendance, leave/loan/move-order workflows, SAP real-time sync, multi-level approvals, advanced reporting (CSV/PDF). Stack: React.js · Flutter · SAP ERP.

Web: weapp.weplbd.com · Play Store: [ESS App](#)

SSGIL Procure-to-Payment (P2P) — Oracle ERP-Integrated Procurement Platform

End-to-end multi-million-dollar procurement workflow for Seven Rings Cement. Covers supplier registration, PR→RFQ→CS→PO→GRN→Invoice, with multi-level approvals and real-time Oracle ERP sync. Stack: React.js · TypeScript · Oracle ERP.

Live: p2p.ssgil.com

BRB Cable — Warranty & Incentive Management Ecosystem (Web + Mobile)

B2B warranty, authentication, and incentive platform for BRB's dealer and retailer network. Features: QR code generation/validation, retailer onboarding, multi-tier incentive payouts, role-based approval workflows. Stack: React.js · Flutter · TypeScript.

EDUCATION

B.Sc. in Computer Science & Engineering · Bangladesh Army University of Engineering & Technology (BAUET) *2015 – 2019 · CGPA: 3.81 / 4.00*

Relevant Coursework: Data Structures & Algorithms · OOP · Databases · Operating Systems · Computer Networks · Machine Learning

AWARDS & RECOGNITION

- 2nd Place, Intra-University Programming Contest — Bangladesh Army University of Engineering & Technology
